CONFERENCE October 6th-10th

San Sebastián is hosting the inaugural edition of the Conference Series on Additive Manufacturing of Soft Materials, between October 6th and October 10th, 2025.

In addition to premier talks by leading experts worldwide, the conference includes time for oral poster sessions from individuals of all career stages, and a one-day Young Researchers Symposium on the 6th of October 2025, to facilitate the collaboration between a new generation of scientists working in AM technologies. This forum aims to encourage networking and the exchange of knowledge within the diverse scientific and industrial community.

Organizing Committee

Haritz Sardon / POLYMAT, University of the Basque Country, Spain
Timothy Long / Arizona State University, Arizona
Eva Blasco / Heidelberg University, Germany

Plenary Speakers
